ENTERPRISE TIME RECORDING SOLUTIONS INC.
Flexible Solutions For All Your Time Recording Needs

Enterprise Suite on Demand

MOBILE APP
MID-MARKET EDITION
**Web-based Time and Labour Management Solutions**

Android   Android Tablets   iPad   iPhone   Windows Phone

Track and Manage Employees Anytime, Anywhere.

The Mobile App delivers advanced methods to easily track, collect and manage employee time and attendance. Not only does the Mobile App allow employees to request time off but also gives the employee an overview of their hours worked and hours requested off. The application allows managers to view reports, approve time sheets and time off requests. Its functionality is different based on the user rights that you define. The free application is available for iPhone and Android devices in conjunction with the Enterprise Suite on Demand web solution.

The Mobile App Makes Managing Easy!
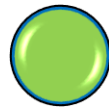

MANAGER SCREEN

The Mobile App has been created to address the complex and evolving needs within your business. Managers can view, review and approve employee timesheets and time off requests. The mobile application allows managers to view reports such as the Dot Board which shows the current in/out status of all employees.

Cost Effective

Mobile App Compatible with Enterprise Suite on Demand

Enterprise Suite on Demand (web based solution) is offered on a subscription basis for clients interested in a "cloud" solution. Your data is centralized and accessible to you over the web, anywhere, anytime... safe, secure and password protected. Employees can clock in/out from a pc at the office, from the road via our mobile app, or a dedicated data collection terminal.
